bar Reland, relating to the purchase and sale of a copy of Burk's History of Virginia, had been lost, but neither the members of the board nor Mr. Kennedy would discuss the matter even remotely when seen has night.

It seems quite probable, however, that the papers were in the possession of Mr. Kennedy, and are now before the board, with other efficial documents used at the former inquiry. Interest is thoroughly revived in the library situation, and it is almost certain that the open sessions of the board in the Senate chamber will be argely attended.

MENTAL HEALING AROUSES CHURCH

Reports From North Say Episcopal Convention Will Consider Matter in Richmond.

NEW YORK, March 11.-It is believed hat the Protestant Episcopal General Onference, which will meet in trieminal session in Richmond next October, will venture an expression upon mental healing, or, at least, upon that phase of the treatment of bodily disease that attempts to effect a cure by the assistance of the mind.

of the mind.

True to its record of having originated most of the unusual doctrines, good and oad, religious and otherwise, Boston has within a year tried some experiments that have turned out well, it is said, and

Dr. Worcester Experimenting.

These experiments have been made at Emmanuel Church, of which Rev. Dr. Leixhton Parks, now of St. Bartholomews, this city, was until recently the rector. The present rector is Rev. Dr. Elwood Worcester, late of famous St. Stephen's Parish, Philadelphia. It is not the present rector, however, who has alone been making these experiments. He has an assistant, Rev. Dr. Samuel McComb, lately from Belfast. He had a Presbyterian puipit in this city for some years. At that time he was devoting nimeelf to Browning, and had a series of lectures which attracted wide attention. He returned to Ireland and returned as an Episcopalial. Dr. McComb went as assistant to the Emmanuel Church, Baston, and there he and Rev. Dr. Worcester have tried mind cure, rest cure, and the like, aimed especially at the getting of people into a halithy frame of mind, as one regulsite of getting them later into a healthy condition of body and of soul.

into a healthy condition of body and of soul.

Leaders in the Episcopal Church remark that not a word of criticism has been heard within the church regarding this Boston experiment.

There seems, instead, to be a general approval of it, although throughout the church there seems to be not adequate knowledge as to what it is. At the same time, gratification is expressed that the Episcopal Church has at least undertaken to utilize forces of mind over matter. The success of the Boston experiment will, it is said, cause the whole question to come before the general convention.

What They Say Here.

Representative members of the Episcopal Church in Richmond were universal to the city pastors. It is pointed out, however, that though by no means endorsing Mrs. Eddy and the Christian Science movement, so called, still a large number of thinking people of all creeds have come to accept a certain belief in they Many leading pole of all creeds have come to accept a certain belief in they Many leading pole of all creeds have come to accept a certain belief in they Many leading pole of all creeds have come to accept a certain belief in they will be a short time. A dispatch was to day received at the State Department of Honduras expects a naval engagement near Celba and an and mind cure by seclusion is generally accepted and used by both the ministry and the medical profession in securing e healthy mental condition as a requisite of getting the patient later.

Mr. Brown is now on his way from Ampala to the Honduras capital, Teverally the benefit of people who are tired out or worried by perplexing religious questions. It is not thought here that the Episcopal General Convention will take any action condenning these "retreats," nor does the medical profession in service of giving sugar pills to nervous patients.

SONS OF SUNNY ITALY MUST GO BACK TO SERVE IN ARMY

Came to America Before They Were of Age, and Family Now Have to Send Them Across Water Again.

Four sons of sunny Italy, who were brought to this country before they became of age, will leave Richmond to-morrow night for New York, whence they will sail for Italy, where the law of their native land requires them to serve a term in the army. The length of service, however, is shorter than the service of the service they will sail for Italy, where the law of their native land requires them to serve a term in the army. State Makes Emphatic Denial That American Representative Was Badly Treated.

WASHINGTON, D. C., March 11 .- Mr.

State Department officials are emphatic in their denial of reports that President Zelaya, of Nicaragua, forced Mr. Merry, the American minister to Nicaragua, Costa Rica, and San Salvador, out of Nicaragua, and offered him insuit of a serious nature at the time of Mr. Merry's visit to Managua, the Nicaraguan capital, three weeks ago. It is admitted by the State Department that Mr. Merry was not able to effect a settlement of the Well claim, but the department has no knowledge of any friction between Mr. Merry and President Zeinya.

The State Department later to-day received a mail dispatch from Minister Merry, dated February 16th, as he was making his way on a steamer down the west coast of Central America from Corinto, Nicaragua, to San Jose, Costa Rica. The minister, in his note refers to the attempt made by the Nicaraguan officials in Corinto to search the steamer upon which he embarked for arms supposed to be intended for the Costa Ricas. The attempt failed, but Minister Merry was not involved in any way, nor was any effort made to interfere with his movements.

WIDELY KNOWN IN THE SOUTH

Now President of Rhode Island College of Agriculture and Mechanic Arts.

DR. HOWARD EDWARDS.

Information was received here yesterday to the effect that Dr. Howard Edwards, a noted Virginian, now president of the Rhode Island College of Agriculture and Mechanic Arts, is being urged for the presidency of the Virginia Polytechnic Institute by a large following, composed more particularly of those who desire to secure the more thorough development of the agricultural department of the institute.

It is known that the name of Dr. Edwards is now before the special committee appointed by the board of visitors to recommend a successor to Dr. J. M. Carrington, Mr. H. M. Smith, Jr., of this city, and Hon. Peyton St. Clair, of Glies. Supporters of Dr. Edwards declare that he is eminently qualified to administer the affairs of the institute with notable success. The recent resignation of Professor A. M. Soule, who leaves stating that he has been much handicapped in his agricultural work, adds emphasis to the assertion of many friends of the school that this feature is not being given the attention it deserves. With this before them, friends of Dr. Edwards, whose most important work has been in agricultural work has been in agricultural work and secularly fitted for the place. There is no assurance whatsoever that he can be brought to Virginia, but those who wish him to return are willing to undertake the task of bringing him back.

REUNION FUND SLOWLY GROWS

As the great Confederate Reunion will begin in this city May 30th, the committees now engaged in soliciting funds for the proper entertainment of the thousands of old soliders coming here have only sixty-nine more working days in which to procure the money they need.

This limited prospect somewhat appais them, for the committees are still nearly \$7,000 short in the amount they need, and as the weeks go on the work of canvassing becomes more difficult. Yesterday, however, the financial cloud had a decidedly silver lining, for the total receipts aggregated \$209 and swelled the amount in hand to \$18,226.50. The contributions were as follows:

Ruef appeared with all of his attorneys, save Samuel M. Shortridge, and took a seat near the counsel table. By him sat Mayor Schmitz, who was accompanied by his special deputy, J. C. Campbell. Assistant-District Attorney Francis J. Heney appeared for the people.

The contest was opened by Mr. Heney, who moved that the court quash the order made by Judge Hebbard in the Superior Court, by which Ruef's original \$50,000 bail was released. Attorney Ach, chief counsel for Ruef, opposed Heney's motion.

"In my opinion," said Judge Dunns. "the proceedings in department four (Judge Hebbard's), of the Superior Court, were had by means of trickery and deceit and were in their entirety a fraud."
